

NOTICE

YARD GRAVEL PROJECT **September 17 – September 28, 2018**

Starting on Monday, September 17 and lasting up to 10 business days, Seton Construction will be re-gaveling portions of the Boat Haven Yard.

Work will begin in the small yard and ship yard with spreading and compacting gravel.

Expect traffic delays and traffic flow disruption.

Please pay special attention to traffic controllers and Port staff; stay away from equipment; and be mindful of your surroundings.

The purpose of the gravel project is three-fold:

1. Maintain Travel ways
2. Improve Stormwater Quality
3. Reduce Dust

Thank you for your patience during this time.

Questions can be directed to Marc Horton, Project Manager, 360-890-0752
