

BMP Updates for Jan-May 2022

Educating Boaters and Enforcing BMPs

- Communication with 31 tenants about BMP violations (1st offense)
- 3 of these were repeat violators and received official warnings (2nd offense)
- 1 was issued a fee

Common BMP Violations

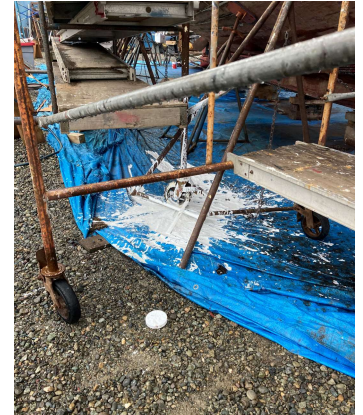

- Hydraulic oil washed into water (at least they attempted to recover!)
- Buckets of waste oil sitting out and spilling onto tarps
- Torn tarps, paint particulate, and scraps all over

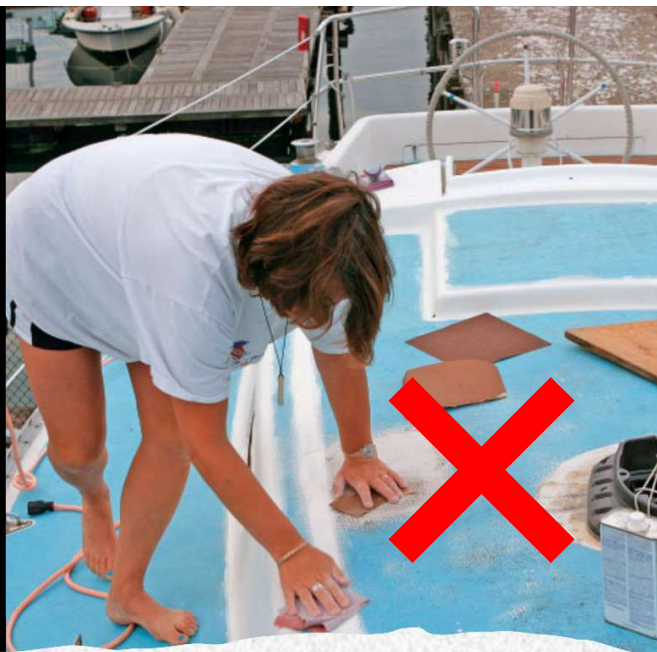

More BMP violations!

- Wood shavings and particulate leaving tarp (and getting rained on)
- Spilled paint
- Super sudsy galley water being released

Acceptable sanding

Sheens

- 14 significant events reported since January 2022
- 6 for sheens with *unknown* sources
- 6 for sheens with known sources
- 2 for a sunken vessel and a grounded vessel (not BMP related)

Acknowledging hard work

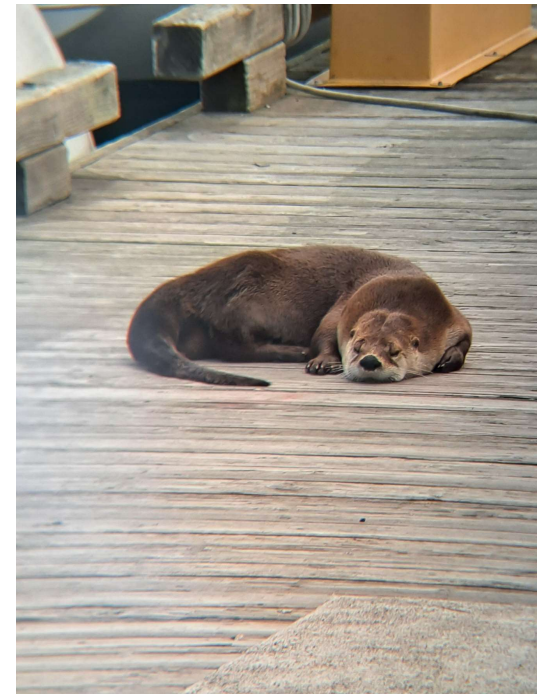

- Recognizing those who go above and beyond!

Stormwater and wastewater sampling

April 2022 Stormwater Sampling Results			
Drainage	% Area	Copper	Zinc
W Sims	5.73%	160.0	41.2
E Sims	4.67%	120.0	50.6
Vault 1	21.63%	36.1	12.8
Vault 2	14.93%	170.0	69.0
Vault 3	21.72%	220.0	259.0
Vault 4	31.33%	71.0	28.0
Area weighted average	100%	118	83
Benchmark		147	90

- In January, April, May, October, and November, stormwater samples are collected and analyzed for Cu, Zn, and TSS

Just a few of the reasons why
