Subject: JCIA taxiway connector project
Date: Saturday, November 18, 2023 1:57:28 PM

Hi Port Commissioners:

I see the A3 taxiway connector project at the airport has been completed. I'm out at the airport quite often, and from what I've seen Seton Construction has done a great job.

They got the work done, properly and in a timely fashion.

And not only did Precision Approach Engineering do a good job with the design work, but they've been out at the airport quite a bit providing oversight during the construction.

Congratulations on a project well done!
