Subject: Raise in Moorage rates

To Port of Port Townsend Commissioners,

We are very frustrated with the rate increases not commensurate with services rendered here in Quilcene. Let's smooth out CPI so we can plan. We need stable , predictable and affordable rates. Let's serve our community!

It is disheartening and infuriating when promises are made and not followed through with. We hope the permit for the Quilcene boat ramp, restroom and dredging and are in process as we know they take a long time to be approved.

The removal of the harbormaster, the bathroom, and the gas pump continue to minimize the potential uses for the HB Marina.

The promised removal of the log/wood debris by the Yacht Club along the shore has yet to happen and the placement of picnic tables there would be great.

Respectfully,
Kit Kittredge
