Hi Port Townsend Port Commission-

I would like to submit the following for public comment at the February 26th meeting:

My name is Marie Pahlmeyer and I'm a winter monthly liveaboard tenant in Point Hudson. My understanding is that additional parking lots on Point Hudson property including the Cupola building lot I keep my car in during the winter are to be converted to paid parking this spring. I would ask the port to consider issuing parking permits for the Cupola lot to the winter monthly liveaboard moorage tenants as part of their moorage. The lots will have little usage during the winter months when the monthly moorage tenants are present. I believe it will make both the winter moorage more attractive to boaters and reduce stress on other Point Hudson parking uses. Thank you so much for your time and consideration.

-Marie Pahlmeyer
